

EV Stores launches Electric MyCar from Park Lane

The new all-electric Mycar has arrived on Park Lane.

Launched at the British International Motor Show in July 2008 and voted **Electric Car of the Year** at the prestigious Green Fleet awards, the MyCar is destined to be a familiar sight on the capital's roads. With Italian styling, MyCar comes with a host of practical and stylish options, panoramic glass roof and a choice of over 50 colours.

Recently recognised by whatgreencar.com as the **best vehicle to beat the credit crunch**, the MyCar comes with a host of savings like free Road Tax, exemption for the Congestion Charge and free parking in many central London locations. Charged from any domestic socket, it can even be fuelled up for free from the growing number of electric Juice Points across the capital.

MyCar is exclusively available through **evstores** and can be seen at their flagship London location at the London Group Showrooms on Park Lane.

Information for editors:

evstores is a private limited company that promotes, sells and services electric cars. From its main offices at Park Lane, Mayfair, London it distributes vehicles from the following brands: MyCar city cars, Micro-Vett commercial vehicles and vans, Tazzari city cars and e-max scooters. All vehicles distributed by evstores are pure electric and are fully approved for road use in the European Union. More information is available from the contacts above or on www.evstores.co.uk

MyCar CV.2 is developed and manufactured by EuAuto Technologies in Hong Kong. The MyCar CV.2 was designed by Guigaro in Italy and developed by a team of international experts. The vehicle is manufactured in China and will be the first of a range of exciting products to be introduced by Hong Kong's first car manufacturer.
